

Installing with the Update Site

1. In Eclipse, select “Help > Install New Software”
2. Select “Archive” and point to the User Stories Tool zip file
3. Uncheck “Group Items by Category”
4. Check “User Stories Tool”
5. Click Next and accept the licenses to install the plugin
6. Restart Eclipse when prompted.
7. In Eclipse, select Window > Show View > Other > User Stories Tool and open the User Stories Tree to start using the plugin.

Installing with the JAR file

1. Copy the supplied .JAR file into the following directory: `<eclipse installation folder>/plugins`.
2. Restart Eclipse.
3. In Eclipse, select Window > Show View > Other > User Stories Tool and open the User Stories Tree to start using the plugin.
